SIGACT & ACM

www.acm.org

The **ACM Special Interest Group on Algorithms and Computational Theory** (SIGACT) specializes in the theoretical foundations of computer science. SIGACT members are interested in diverse topics such as algorithms, complexity theory, parallel computation, VLSI, cryptography, machine learning, computational geometry, number theory, and distributed computation. The membership is unified by their mathematical rigorous approach to modeling and solving computational problems. The quarterly newsletter *ACM SIGACT News* publishes research results as well as news of interest to the community. The SIG sponsors or co-sponsors several symposia and conferences, and offers proceedings through its Member Plus Package.

The **Association for Computing Machinery** (ACM) is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, plus full access to the *Guide to Computing Literature*, thousands of free online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.

ACM accepts U.S. dollars or equivalent in foreign currency. Prices include surface delivery charge. Expedited Air Service, which is a partial air freight delivery service, is available outside North America. Contact ACM for more information.

Mailing List Restriction

ACM occasionally makes its mailing list available to computer-related organizations, educational institutions and sister societies. All email addresses remain strictly confidential. Check one of the following if you wish to restrict the use of your name:

- ☐ ACM announcements only
☐ ACM and other sister society announcements
☐ ACM subscription and renewal notices only
