SIGART & ACM

www.acm.org/sigart

www.acm.org

The scope of SIGART, ACM's **Special Interest Group on Artificial Intelligence**, consists of the study of intelligence and its realization in computer systems. SIGART's mission is to promote and support AI-related conferences. Members receive reduced registration rates to all affiliated conferences, as well as proceedings from the major SIGART-sponsored conferences.

The **Association for Computing Machinery** (ACM) is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, plus full access to the *Guide to Computing Literature*, thousands of free online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.
