The **ACM Special Interest Group on Management of Data (SIGMOD)** is an association for students and professionals interested in research, development, and deployment of solutions to large-scale data management problems. The scope of interests that members bring to SIGMOD is wide, with an almost equal mix of people from industry and from academia. SIGMOD sponsors an annual conference that is regarded as one of the most important in the field. SIGMOD members receive: full access to the SIGMOD website, including the proceedings from the SIGMOD conference; the annual MOD/PODS Conference Proceedings on CD-ROM; an annual compilation of new database literature free of charge (the *SIGMOD DiSC* on DVD); and volumes of the *SIGMOD Anthology* as they are produced (including 20 years of publications from the field's most influential conferences and journals). Members also have the option of purchasing at cost the entire Anthology Collection on a two DVD set (called the Silver Edition).

The **Association for Computing Machinery (ACM)** is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, plus full access to the *Guide to Computing Literature*, thousands of free online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.
